**SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT**

Commissioner for Patents  
P. O. Box 1450  
Alexandria, VA 22313-1450

Sir:

An Information Disclosure Statement was submitted for the captioned application on May 7, 2002.

A Search Report from the European Patent Office for European Application No. 00303519.3, a foreign counterpart application of the above-captioned U.S. application, was mailed on April 3, 2002. The Search Report cited seven references that were not included in the previously submitted Information Disclosure Statement. The references are listed as References BL-BW on the enclosed PTO Form 1449. The European Search Report is the first citation of these references in any communication from a foreign patent office in a foreign counterpart application.

No representation is intended that a complete search has been made of the prior art or that no better art references than listed below are available. The filing of this Statement shall not be construed to be an admission that the information cited in the Statement is, or is considered to be, material to patentability as defined in §1.56(b).

Applicant does not believe a fee is required for consideration of the enclosed reference since it is submitted within three months of the mailing date of the first citation of these references in any communication from a foreign patent office in a foreign counterpart application. However, if a fee is required, the Commissioner is hereby authorized to charge such a fee, with reference to our matter number 7475-70049, to our Deposit Account No. 10-0435.

Respectfully submitted,

BARNES & THORNBURG

---
